Our History Contest

The prize for January goes to Miss Virginia L. Kayser, of 201 East Beverly Street, Staunton, Va.

A special prize is sent to Miss Mary Overton Haw, of Hanover, Va., for a very excellent paper.

The editor of the Woman's Page calls attention to a series of articles on "Jilistoric Colonial Drogs," which may be of interest to Virginia women, the first number of which will be published next Sunday. The prize answers tollow.

Answers to January Questions.

1. (a) "A True Relation of Virginia," by John Smith, was written in 1888. (b) It was carried to London in the ship Phoenix, commanded by Captain Francis Nelson, "an honest must be compared to the same year at The Greyhound. It he same year at The Greyhound. In Paul's churchyard, and was the first book written by an Englishman in Arnerica. (c) A map of Virginia, with a description of the country, commodities, people, government and religion.

government and religion.

2. (a) Smith's writings bear the impress of a man of large nature and have the tone of the actor rather than the student. The solder nuthor expresses his meaning in the directest manner, with a rugged force often, sometimes with humor, always honestly and without mineing his phrases. Many passages are characterized by a noble and lofty cloquence, but his books are nearly all narrative except his "Sea Grammar" and the description of Virginia, and reflect the character of the writer. (b) Pocahontas and John Rolfe.

3. (a) Conchanganousch. (b) Before

3. (a) Opechancanough. (b) Before sunset 347 persons were slain, including six members of the Governor's Council.

six members of the Governor's Council.

4. A proposition made by Smith to the company to go out and completely subject the tribes was not acted upon; the colonials were strong enough for themselves. Recovering from the effect of the blow they acted with vigor, and armed parties harrying the woods completely paralyzed any further efforts which the Indians could make. (b) The intelligence reached England of the bloody "Indian massacre," and caused a great sensation, and a spasmodic effort was made to supply the Virginians with arms. It came to nothing.

5. London Company obtained a patent

with arms. It came to nothing.

5. London Company obtained a patent from the King, and the government entrely changed. Superior Council was abolished, and the powers of that body were transferred to the stockholders, who were authorized to hold public meetings, elect their own officers, to discuss and decide all questions of law and right, and to govern the colony on their own responsibility.

their own responsibility.

6. Commissioners sent to Virginia to hunt for materials of attack. The company fought steadily, but the judges were subservient to the crown, and on June 16, 1624, the charter was annuled by a judicial decree. Virginia passed under the absolute control of the King.

under the absolute control of the king.

7. The King's commissioners gained nothing; they could only go back to England and report that the colony was badly managed, and that all the ills of Virginia sprung from popular government there. It was a general and sufficient report, since it pleased the King and his party.

and his party.

8. An iniquitous grant to Arlington and Culpeper was revoked, and in July. 1833. Virginia once more became a royal province.

9. After hearing the report of the commissioners the King delayed no longer. He suppressed the quarterly sessions of the company, ordered a meeting of the Lord President and others to be held every week to consider the affairs of the colony. Such was the end of this wealthy company. On coming to trial the judgment was rendered

upon an error in pleading committed by an agent of the company, and not upon the broad merits of the case. The London corporation was dissolved, and the King appropriated to himself the power of directing the colony as he should see fit.

10. Sir Francis Wyatt continued as Governor by commission from King James, dated August 26th, 1624, and again in May, 1625, by the young monarch, Charles I. An assembly, Governor and council to be appointed by the company.

12. Wyatt being called to Ireland he was succeeded by Sir George Yeardley. Councillors for the colony were Francis West, Sir George Yeardley, George Sandys, Roger Smith, Raiph Hamor, John Martin, John Harvey, Samuel Mathews, Abraham Percy, Isaac Madison and William Claborne.

13. A monopoly of the tobacce export.

13. A monopoly of the tonacce export.

14. Five hundred thousand pounds.

More than 1,000 emigrants.

15. Yeardley died. November 14th,

1627. Supposed to be buried at Jamestown, where he lived. (b) Francis

West, a younger brother of Lord Delaware.

16. July 30th, 1619, in the chancel

of the wooden church at Jamestown.

of the wooden church at Jamestown.

17. James I had extorted a revenue from Virginia tobacco. Charles I. proposed that a monopoly of the tobacco trade o granted him, and recommended the culture of several new products, and desired that an assembly be called to consider these matters. The assembly replied, demanding high price and more favorable terms, explaining why, in their opinion, the introduction of new staples was impracticable. This letter was signed by Francis West, Governor; five members of the council, and thirty-one members of the louse of Burgeases.

18. Dr. John Pott.

18. Dr. John Pott.

19. Sir George Calvert, the first Lord Baltimore, was of noble family, a member of Parliament. He was bent upon establishing a colony in America for the promotion of his private interests and to provide an asylum for exercising his religion. He came over in 1629. The charter required the oaths of allegiance and supremacy to be taken, he being a Catholic he would not take these oaths Finding the Virginians averse to the very name of papist he went towards the head of Chesapeake Bay, and observing a tract of unoccupied land on the Potomac, returned to England and obtained from Charles I. a grant of the country, afterwards called Maryland. He died before the sealing of his pa-part.

20. Sir John Harvey, Royal Governor, d dispute arose concerning boundaries in consequence of the claim by the founder of Maryland to the territory on which, were the trading posts established by William Claiborne. Harvey gave great offense by taking sides with Maryland.

The Evils of Eye-Strain Conquered.

as steam or electricity operates the mechanical machine. Any ex-

cessive demand upon this vital energy, or disturbance of its regular

flow, is certain to show as a functional derangement of some of

the organs. We point to the fact that the human eye consumes

ten per cent. of all the power generated in the brain-that is, the

eyes are entitled to that much by Nature's assignment; but when

they are defective they will involuntarily get the upperhand of the

rest of the nervous system, and use up more nerve energy than they

are entitled to, sometimes as much as seventy-five per cent, of all

that is generated, in their effort to overcome their defects and main-

tain vision. This constitutes eye-strain. With these facts in view, it is easy to see that if the eyes consume an amount of the

body's supply of nerve force in excess of their natural share, some other organ must suffer, because the eyes have thus become a leak

on the system, and have so exhausted the supply of vitality that,

no organ can perform its function perfectly, purely from lack of

the necessary power to operate it. Then medical doctors will find

symptoms of deranged functions and treat the symptoms. We

proceed to find the cause and remove it, and the symptoms will dis-

appear of themselves. There is nothing mysterious about this.

No theory is worthy of confidence until it has been practically de-

monstrated. More than ten thousand successful cases, hundreds

of which had tried other methods as practiced by the most eminent

old-school specialists, is about the best demonstration of the supe-

PURITY

PRODUCT

When Cascarets Candy Cathartic were invented in 1896, and the formula was perfected after much experimental labor by highly scientific chemists, it was our aim not only to produce a perfect combination of EFFECTIVE CONSTITUENTS, but to

have every ingredient the very best in point of PURITY and QUALITY that could be obtained.

We established a standard of PURITY and QUALITY and MEDICINAL STRENGTH, that has been maintained for all these years, and every Cascaret tablet has been as harmless, pure, gentle and effective as every other one.

The substances that enter into a medicinal formula, to produce the desired effect, to be SAFE and ever TRUSTWORTHY, MUST be clean, fresh, carefully selected and compounded with painstaking supervision.

The eternal vigilance necessary to secure the ingredients of Cascarets in the most PERFECT CONDITION, so as to get the best effect without any danger from intruding substances, has never been relaxed.

What is the result?

There has never been a disappointment, never a complaint. The people of America are today buying over ONE MILLION BOXES a month of Cascarets Candy Cathartic, a recognition of their dependable qualities to do what is claimed for them, as the best medicine FOR THE BOWELS as yet discovered. Our patrons are all our friends, loyal and more than satisfied of the stead-

fast, honest, reliable MERIT of our preparation. It is today the greatest FAMILY MEDICINE in the world. We attribute Cascarets' great success to PURITY, QUALITY and MEDICINAL EFFICIENCY, backed by Truth and Honesty in our dealings.

The Congress of the United States, on June 30, 1906, passed a PURE FOOD AND DRUGS ACT to protect the Health of the People against adulteration, misstatement and careless processes. This law went into effect January 1, 1907, and will help to banish all questionable practices and preparations. We

The essence of this law was anticipated by the makers of Cascarets when the first box was made ten years ago, and every precaution was taken to establish Cascarets as the standard, reliable and responsible Bowel medicine for the

ELIXIR BABEK

WASHINGTON, D. C. May 19, 1990,
It is with pleasure that I speak of the
benefit I received from the use of "Babok." After three years of constant
treatment with the best known remedies
for mailaria, I was induced to try "Babek"; by first taking a dose of calement
the effect upon the disease was most
marked after using the first bottle; the
second, however, brought permanent and
lasting rollef. Four years have passed,
and I have not had a return of the symptoms, I am able to report equally as good
results in the case of two members of
my family.
